

Kevin Peavy, Director

For the past 10 years, Joseph Minton Antiques has been providing the Dallas art scene with one-of-a-kind antique products from all over the world. Founded by well-known interior designer Joseph Minton, who also operates an interior design firm out of Fort Worth, Joseph Minton Antiques only offers rare, unique products, hand-selected by experienced professionals with a solid knowledge of the antique market. Many of the items available at Joseph Minton Antiques were acquired from all over the world, including Damascus, Jordan and Egypt, making the shop a popular destination for professionals in the trade.

What inspired you to participate in the LUXE Showhome?

I liked the people involved, and I knew the project would not be a typical showhome. It is much grander in scale and more refined than that of a traditional showhome most people would imagine. This is the largest project I have personally ever been involved in.

What makes the product or service that you featured in the LUXE Showhome unique?

All of the antique pieces we contributed to the LUXE Showhome were made by hand.

How do you define a luxury home?

A luxury home fits the needs and wants of the owner seamlessly and effortlessly.

"Joseph Minton Antiques carries a unique selection of English, French and Continental furniture and accessories."
